Service: **1-800-387-3139**

All e-mail addresses and phone extensions will remain the same

Teksign Inc. has supplied sign products and services worldwide for over 64 years. For the last 43 years we have operated from our facility located at 6415 Viscount Road in Mississauga, Ontario. In a continuing effort to better serve our industry we are proud to announce the purchase and upcoming opening of our new facility.

Beginning July 13, 2010 our entire manufacturing and administration operations will be located in Brantford, Ontario. This new turnkey facility is production ready (production has already commenced) with already installed and certified multiple crane systems, down draft paint booth, as well as hydro and air systems to support our current and expanded inventory of production equipment. These innovations will also help us control cost and maintain a competitive edge.

The Mississauga facility will be closed as of the end of July 9, 2010. All equipment, personnel and existing orders will be transferred to our new facility.

Our decision to relocate to a more modern and efficient production facility has been part of Teksign's long term strategic plan of bringing improved quality and faster service to our customers.

We are particularly excited at this time with the direction our company is taking. All efforts are being made to maintain uninterrupted production of your orders. Our sales and project management staff will keep you updated on the status of your orders. A seamless transition remains our operational goal.

I thank you for your past and present support as we position Teksign to better serve your needs.

Dan Mullin
President
